About HHRDO

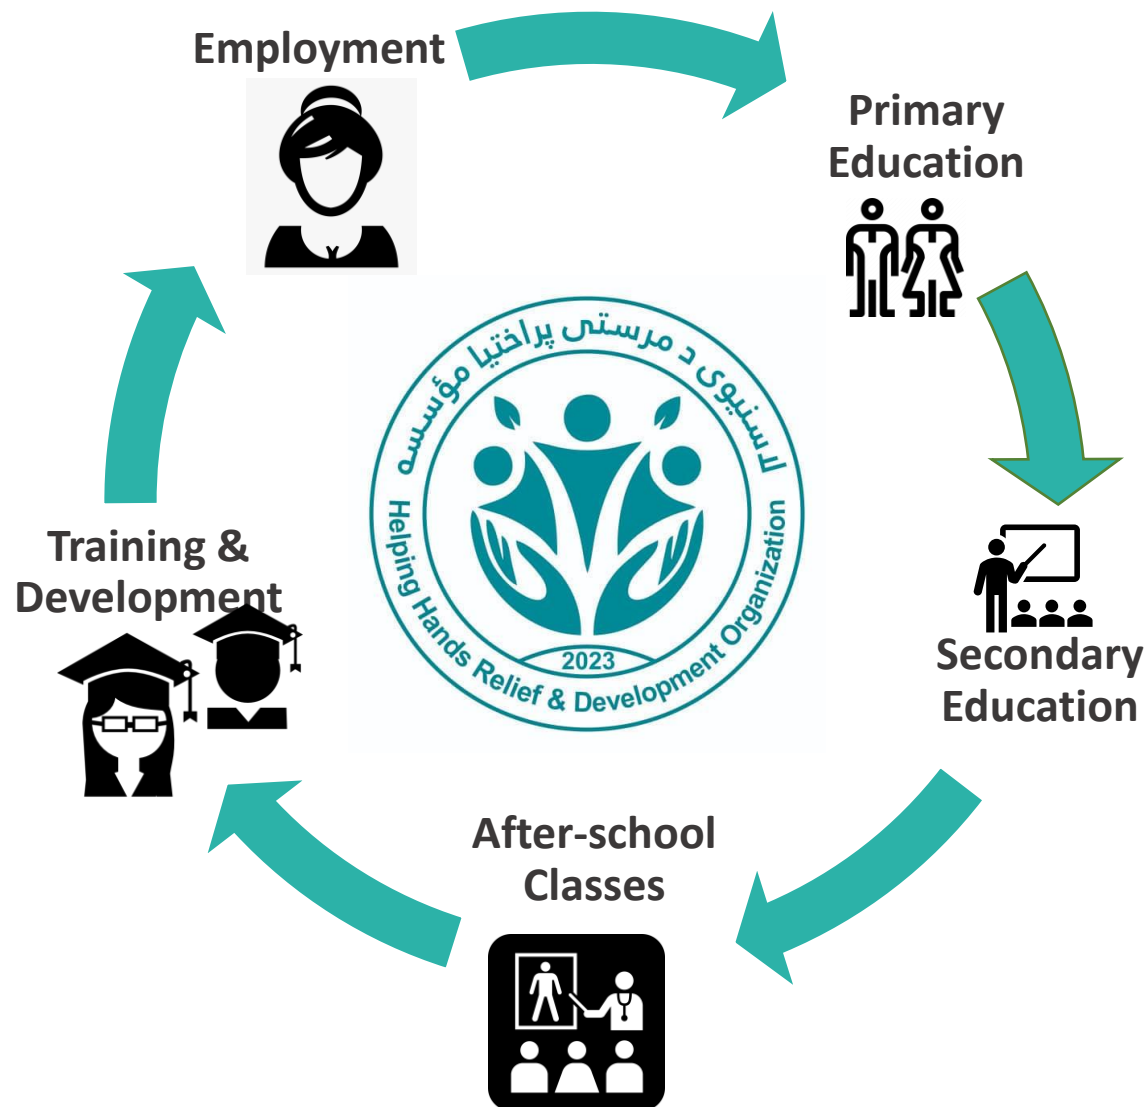

- Helping Hands Relief & Development Organization (HHRDO) is a registered non-profit organization operating in Afghanistan
- HHRDO was established in 2018, it started as a family funded initiative by members of Wolasmal family residing in Norway and gradually it attracted a network of friends. Witnessing an exponential growth and demand for our services, we had to organize our activities into a formal organization. HHRDO was registered with Afghan authorities as NGO in Jan 2023.
- Illiteracy and lack of education have historically contributed to the perpetuation of war, conflict, and poverty in Afghanistan. Our mission is to address this fundamental issue. Access to education for young girls in Afghanistan has been a contentious political issue for decades. However, HHRDO stands as a beacon of hope, providing hundreds of young girls and boys with access to invaluable educational resources.
- **Our mission:** Primary areas of focus are Education and development of Education Centers, Welfare programs for orphans & widows and indigent students
 - **Education:** Provide and facilitate education opportunities for the deprived girls and boys in rural communities of Afghanistan
 - **Capacity Building**
 - **Support Orphans & Widows**
 - **Community Outreach & Development**
- Our educational model combines modern educational principles with religious studies, a deliberate strategy aimed at mitigating potential opposition from parents in conservative religious communities and preempting conflicts with religious groups.
- The curriculum encompasses a comprehensive array of subjects, including Mathematics, English, Reading, Writing, Pashto, Health and Social Education, Religious Studies, and Computer Literacy courses.

EDUCATION PROGRAMS

Developing a knowledge-based echo system

OVERVIEW OF EDUCATION PROGRAMS

Entity	Category	Student #	Images
M.H. Wolasmal School	Male	300+ (11 staff)	  
Bibi Islamic School	Female	350+ (9 Teachers + cleaner + guard)

Hewad Wolasmal Teacher Training College (HWTTTC)	Male/ Female	143 Female 230 Male	  
Siddiqa Ulfat Islamic School	Female	125 students (5+1 staff)	  

Temporary suspension by authorities

FEMALE EDUCATION

- **GIRLS EDUCATION**

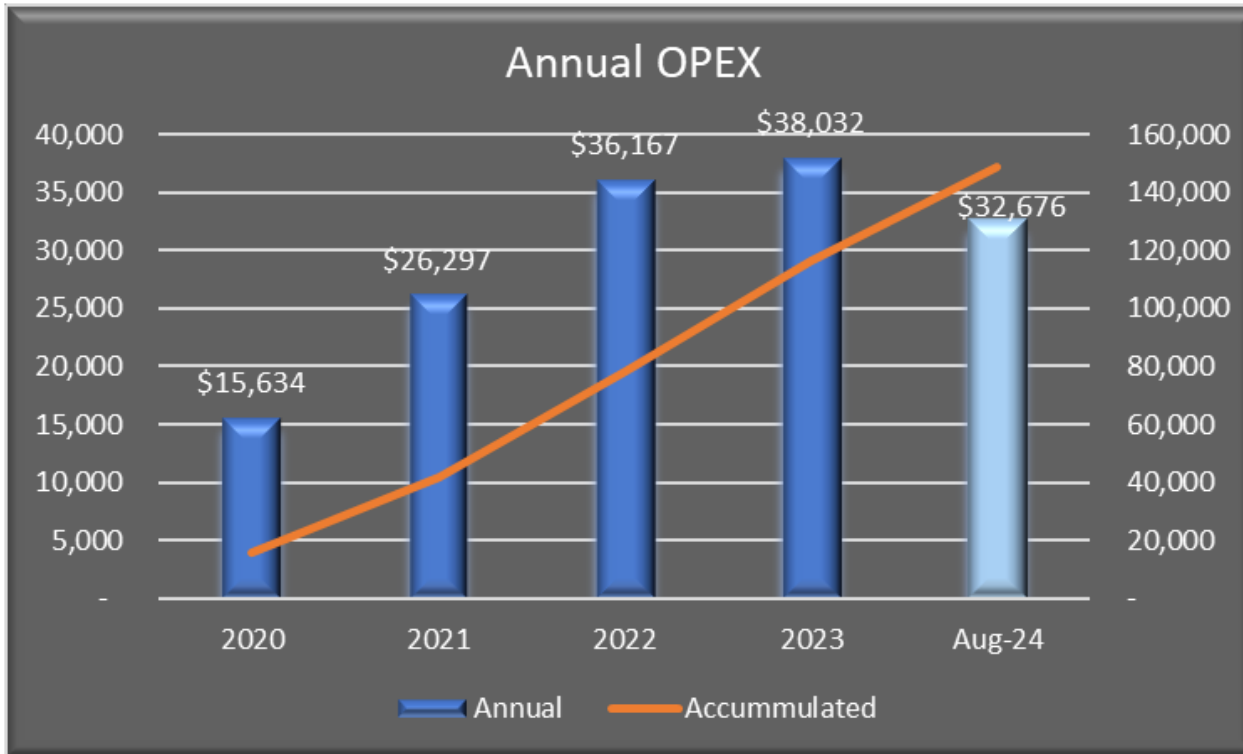

- The reemergence of the Taliban and the subsequent ban on formal education for girls beyond 6th grade have once again placed Afghan girls in a precarious position.
- Taliban have continued its ban on girls' education above grade 6 for foreseeable future affecting millions of girls who long to resume their education. HHRDO's education program is even more critical than ever! Many girls who had to leave secondary education have applied to our programs.
- The current program is running 3 full time girls schools, serving more than 800 girls.
 - **Bibi Female school:** has 400 student from the age of 5 to 18. The curriculum encompasses a comprehensive array of subjects, including Mathematics, English, Reading, Writing, Pashto, Health & Social Education, Religious Studies, and Computer Literacy courses. Initially the school started teaching grade 1-3, and after 5 years of operation the school has advanced to grade 8 in the academic year of 2024/2025. Despite the growing demand only one class is added each year. Our goal is to gradually reach 12th grade, preparing the students for university entry exam Kankur (*French concours*)
 - **Ulfat Female school:** started in 2022 in Kohistan district of Kapisa province, this school has so far around 130 students. Main focus here is on Islamic studies, however our goal is to gradually implement the model of Bibi School here as well, unfortunately lack of funds is the main obstacle to expand the program.
 - **English & Computer classes:** In 2023 we started a new program for girls above the age of 16. This is an intensive 1-year program focusing mainly on English and Computer Science. Given our limited capacity currently 85 girls above the age of 16 are enrolled in the English and Computer classes. These are divided in classes of 25-30 each categorized as level 1-3. Each level lasts 4 months. So far 25 students have graduates from this program completing all 3 levels of English.

FINANCIALS

As we grow so does our OPEX. Below models clearly show the monthly and annual increase of costs:

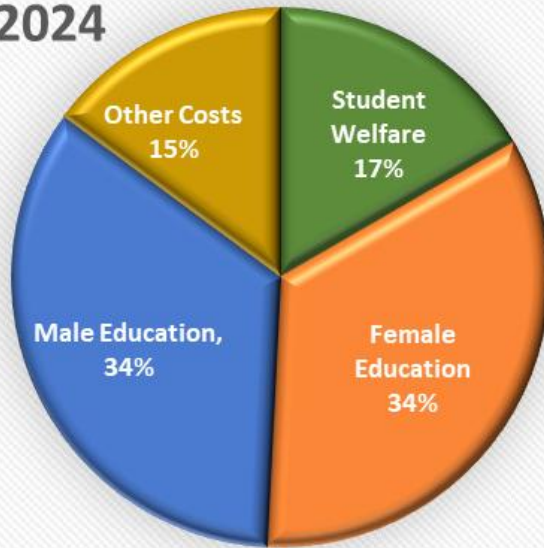

- Currently the average monthly OPEX stands at approximately \$4,000 a month in Kama
- While in Kohistan where our program is at initial stages, the monthly OPEX stand at \$650

	2020	2021	2022	2023	Aug-24
Student Welfare	2,614	4,293	6,512	7,147	4,244
Female Education Salaries	3,980	9,144	13,360	14,403	9,981
Male Education Salaries	6,007	10,307	12,517	12,804	9,584
Other Costs	3,034	2,553	3,779	3,679	8,868
Annual	15,634	26,297	36,167	38,032	32,676
